

## Drugged Beauty

Where am I?

What did you do?

Who told you that I wanted to sleep with you?

Where are my clothes?

Did we have sex?

I would have never consented

We broke up

You were my ex

My prince charming, you are not

The last thing I remember

Me, along with girlfriends, were drinking a lot

Did you put something in my drink that I should know?

If you did, you better tell me so

I'm calling the police

That's just it

You raped me, and I'm not taking no more of your shit
